WHO WE ARE & WHAT WE DO

In the early '90s, the closet industry was littered with many small, fledgling companies. The engineering background of Luiz Panchihak and management skills of Tejas Patel joined together and founded Closets Unlimited on October 2013, provided with their the critical knowledge required to avoid the precarious wall-hung systems that others provided, and to instead, develop a structurally sound & unique floor-based system

The crucial and fundamental decision would not only provide our clients with the unique ability to adjust the system to their own needs, but it would also became the foundation for the changes that would revolutionize the closet industry. On October 2013 Closet Unlimited opened a showroom in Dubai, UAE and provided people with custom closets, kitchens, home offices, entertainment centers, garage systems, pantries, bookshelves, and more.

The key word is more. More, because everyone in our company is focused on what the customers needs. More, because everyone here is dedicated to delivering exactly the product that the customer wants. More, because since the beginning, our belief and philosophy has been to provide our customers with the shopping experience that they deserve. We accomplish this by listening to our clients carefully and involving them in every step of the design process. We believe that every unit we make is as unique as the person who owns it.

No wonder so many of our clients refer us to their families and friends, while continuing to use us for other projects themselves. And we don't stop there; while other companies try to imitate the original, we will never stop advancing and expanding our product lines and the services that we offer.

Today we are nationally recognized as a leader in custom organizational storage system. At the heart of our brand is our design process and how we collaborate with our clients to turn their space into an organizational work of art, one that builds around our client's needs and to create personalized solutions that are smart, well-organized and satisfy their design sensibilities. Our knowledge of custom storage design is unparalleled and our incomparable process has established Closets Unlimited as the authority in storage solutions.

We create custom storage solutions for every room in the home. Although custom closets are a customer favorite, we offer custom design for functional kitchens, home offices, garage cabinets, wall units, wall beds, and much more. Your clients will be able to choose the design that best suits their needs, budget and aesthetics – a truly custom solution to any storage problem in any style the client desires.

Clients often call us for one project, but once they see our complete product offering it's common for them to buy units for multiple areas on the same visit. And, our product line is so expansive and promising your clients are sure to return for more.

OUR PROCESS IS EASY

DISC

Work with a Designer, not a salesperson, who will uncover your likes and needs. We measure your space and take an inventory of your belongings in order to create a design

VERY

DESIGN

With our 3D design software, Idea Books, and samples on-hand, we draft plans that detail the organizational structure and flow of the space. Together we explore our selection of materials and finishes, choosing enhancements, accessories and items to create a closet that is truly unique.

BUILD

Once you have approved your design, our craftsmen go to work. We fabricate each component based on the precise specifications of your designs, because "custom" means individual, cut-to-order construction.

INSTALL

Your dream closet will become a reality. On installation day you can expect friendly, courteous service, quick and expert work, meticulous attention to detail and a thorough cleanup of the space.

ONE-ON-ONE COLLABORATION

Each project starts with a complimentary
in-home design consultation.

You will work closely with one of our expert
Designers to create a truly customized, personal design
that will exceed your desires and transform your space.
From the initial consultation to the installation date and
beyond, your Designer is with you every step of the way.

100% custom-designed
to fit your needs and budget

Made in UAE using
sustainable materials

Professional installation
by our expert team

Best in class customer
service and warranty
